kolaborativna forma stanovanja

Organizacija

Podjela studenata u 4 grupe
jedan student sa drugog univerziteta u svakoj grupi

Studenti će kroz zajedničku saradnju tokom radionice uspostaviti program i parametre za objekat stanovanja, u skladu sa uputstvom:

Nakon radionice studenti će raditi na svojim pojedinačnim projektima stanovanja na matičnim fakultetima i imaće nekoliko mrežnih sastanaka svojih grupa kada će raspravljati o različitim prijedlozima dizajna.

They will also be parts of these groups.

Tema

Tema radionice je takva da može da obuhvati i preklopi nastavne planove i programe svih uključenih univerziteta. Takođe može biti dobar kolaborativni projekt, koji ima potencijal da bude objavljen ili izložen.
