study@europeanculturalacademy.eu

Venice is perhaps the greatest urban environment that the world has ever seen. It is a perfect case to explore the relationship between old and new, people and building; the question of contemporary preservation; architecture and public space; and the methods and means of communicating buildings.

We critically and playfully explore Venice with diverse set of lectures, hands-on workshops, discussions, and tours with local and international experts.

Summer courses at the European Cultural Academy

- **CONTEMPORARY ARCHITECTURE**
- **CITY LAB VENICE**
- **EXHIBITING ARCHITECTURE**
